

WELCOME TO A ESCOLA BY THE ARTIST!

At dinner, to surprise is key for the Chef and his students, true Food Artists, who blend ingredients with creativity and dedication with each tasting experience.

The artistic spirit, characterising the concept, materialises in the absence of a fixed menu, giving way to creative work with the season's flavours.

The art is made on the spot: the sketch begins when you come to the table, the surprise continues throughout the meal. The Chef creates, the experiences build up and the work of art is born.

Choose one of the tasting menus available and get ready for a sensory discovery without leaving the table.
